

## Your Gift Makes a Difference

Your donor contribution provides critical support for our research, policy and education programs—all to further our mission *to inspire conservation of the oceans*.

If desired, you may opt to designate your gift to our Children's Education Endowment Fund, a permanent fund that provides lasting support for our free visits and education programs benefitting California's schoolchildren and their teachers.

We envision a world in which the oceans are healthy and people are committed to protecting the integrity of Earth's natural systems that sustain us all. To help make this vision a reality, the Monterey Bay Aquarium creates exhibits and education programs that introduce people to the wonders of the marine world — from Monterey Bay to the vast oceans beyond. Our conservation research and policy initiatives aim to protect ocean wildlife for generations to come.

With threats to the oceans growing by alarming proportions every day, your generous gift will make a lasting contribution to ocean conservation. I look forward to meeting you at an upcoming donor event.
